The student would have to be registered for and taking classes on campus in order for internet classes to qualify toward meeting the eligibility requirements. All students enrolled in a college, university, community college or technical school may purchase this plan as long as the eligibility requirements are met.

Students must actively attend classes for at least the first 31 days after the date for which coverage is purchased. Home study, correspondence and television (TV) courses do not fulfill the Eligibility requirements that the student actively attend classes. The Company maintains its right to investigate student status and attendance records to verify that the policy Eligibility requirements have been met. If the Company discovers that the Eligibility requirements have not been met, its only obligation is to refund premium.

Eligible students who do enroll may also insure their Dependents. Eligible Dependents are the spouse or Domestic Partner and unmarried children under 19 years of age, 23 years, if a full-time dependent student at an accredited institution of higher learning who are not self-supporting. Full-time dependent students who take a medical leave of absence from school may continue to be dependent for a period of 12 months from the last day of attendance, provided, however that the coverage will not extend beyond the limiting age for full-time students. Dependent Eligibility expires concurrently with that of the Insured student. See the Definitions section of the Certificate for the specific requirements needed to meet Domestic Partner eligibility.

Choice of Plan

Each eligible student has a choice of one of the benefit plans. Plan I (2009-2101-30) has higher benefits than Plan II (2009-2101-31) and it has a higher premium. Make your selection carefully, you cannot upgrade coverage after the initial purchase of the plan for the policy year. Please be aware that if you choose to upgrade coverage in any subsequent policy year, a new Pre-existing Condition exclusion and waiting period will apply.

Effective and Termination Dates

The Master Policy on file at the Association headquarters becomes effective August 1, 2009. The individual student's coverage becomes effective on the first day of the period for which premium is paid or the date the enrollment form and full premium are received by the Company (or its authorized representative), whichever is later. The Master Policy terminates October 31, 2010. Coverage terminates on that date or at the end of the period through which premium is paid, whichever is earlier. Dependent coverage will not be effective prior to that of the Insured Student or extend beyond that of the Insured Student. Refunds of premiums are allowed only upon entry into the armed forces.

The Policy is a Non-Renewable, One Year Term Policy.

Extension of Benefits after Termination

The coverage provided under this policy ceases on the Termination Date. However, if an Insured is Hospital Confined on the Termination Date from a covered Injury or Sickness for which benefits were paid before the Termination Date, Covered Medical Expenses for such Injury or Sickness will continue to be paid as long as the condition continues but not to exceed 90 days after the Termination Date.

The total payments made in respect of the Insured for such condition both before and after the Termination Date will never exceed the Maximum Benefit.

If the Insured is also an Insured under the succeeding policy issued to the Policyholder; this "Extension of Benefits" provision will not apply.

Insured Person's Right to an External Appeal

An Insured Person or an Insured's representative and, in connection with a Retrospective Adverse Determination, an Insured's Physician have a right to an external appeal of a denial of benefits. If benefits are denied under this policy on the basis that the service is not a Medical Necessity or is an experimental or investigational treatment, an Insured Person or his representative and, in connection with a Retrospective Adverse Determination, an Insured's Physician may appeal that decision to an External Appeal Agent. An External Appeal Agent is an independent entity certified by New York State to conduct such appeals.

A Retrospective Adverse Determination is a determination for which utilization review was initiated after health care services have been provided. Retrospective Adverse Determination does not mean a pre-authorization denial or a determination involving continued or extended health care services or additional services for a patient undergoing a course of continued treatment.

Insured Person's Right To Appeal A Determination That A Service Is Not A Medical Necessity

If benefits are denied under this policy on the basis that the service is not a Medical Necessity, an Insured Person may appeal to an External Appeal Agent if the Insured Person satisfies the following two (2) criteria:

1. The service, procedure or treatment must otherwise be a Covered Medical Expense under this policy; and
2. The Insured Person must have received a final adverse determination through the Company's internal appeal process and the Company must have upheld the denial or the Insured Person and the Company must agree in writing to waive any internal appeal.

Insured Person's Rights To Appeal A Determination That A Service Is Experimental Or Investigational

If benefits are denied under this policy on the basis that the service is an experimental or investigational treatment, an Insured Person may appeal to an External Appeal Agent if the Insured Person satisfies the following two (2) criteria:

1. The service must otherwise be a Covered Medical Expense under this policy; and
2. The Insured Person must have received a final adverse determination through the Company's internal appeal process and the Company must have upheld the denial or the Insured Person and the Company must agree in writing to waive any internal appeal.

In addition, the Insured Person's attending Physician must certify that the Insured Person has a Life-Threatening or Disabling Condition or Disease. A "life-threatening condition or disease" is one which, according to the current diagnosis of the Insured Person's attending Physician, has a high probability of death. A "disabling condition or disease" is any medically determinable physical or mental impairment that can be expected to result in death, or that has lasted or can be expected to last for a continuous period of not less than twelve (12) months, which renders the Insured Person unable to engage in any substantial gainful activities. In the case of a child under the age of eighteen, a "disabling condition or disease" is any medically determinable physical or mental impairment of comparable severity.

The Insured Person's attending Physician must also certify that the Insured Person's Life-Threatening or Disabling Condition or Disease is one for which standard health services are ineffective or medically inappropriate or one for which there does not exist a more beneficial standard service or procedure covered by this policy or one for which there exists a clinical trial (as defined by law).

In addition, the Insured Person's attending Physician must have recommended one of the following:

1. A service, procedure or treatment that two (2) documents from available medical and scientific evidence indicate is likely to be more beneficial to the Insured Person than any standard covered service (only certain documents will be considered in support of this recommendation - the Insured Person's attending Physician should contact the New York State Department of Insurance in order to obtain current information as to what documents will be considered acceptable); or
2. A clinical trial for which the Insured Person is eligible (only certain clinical trials can be considered).

For the purposes of this section, the Insured Person's attending Physician must be a licensed, board-certified or board eligible physician qualified to practice in the area appropriate to treat the Insured Person's Life-Threatening or Disabling Condition or Disease.

The External Appeal Process

If, through the Company's internal appeal process, the Insured Person has received a final adverse determination upholding a denial of benefits on the basis that the service is not a Medical Necessity or is an experimental or investigational treatment, the Insured Person has 45 days from receipt of such notice to file a written request for an external appeal. If the Insured Person and the Company have agreed in writing to waive any internal appeal, the Insured Person has 45 days from receipt of such waiver to file a written request for an external appeal. The Company will provide an external appeal application with the final adverse determination issued through the Company's internal appeal process or its written waiver of an internal appeal.

The Insured Person may also request an external appeal application from the New York State Department of Insurance at 1 - (800) 400-8882. The completed application should be submitted to the New York State Department of Insurance at the address indicated on the application. If the Insured Person or, where applicable, the Insured's Physician satisfies the criteria for an external appeal, the New York State Department of Insurance will forward the request to a certified External Appeal Agent.

The Insured Person and the Insured's Physician, where applicable, will have an opportunity to submit additional documentation with his request. If the External Appeal Agent determines that the information the Insured Person submits represents a material change from the information on which the Company based its denial, the External Appeal Agent will share this information with the Company in order for the Company to exercise its right to reconsider its decision. If the Company chooses to exercise this right, the Company will have three (3) business days to amend or confirm its decision. Please note that in the case of an expedited appeal (described below), the Company does not have a right to reconsider its decision.

In general, the External Appeal Agent must make a decision within 30 days of receipt of the Insured Person's completed application. The External Appeal Agent may request additional information from the Insured Person, his Physician or the Company. If the External Appeal Agent requests additional information, it will have five (5) additional business days to make its decision. The External Appeal Agent must notify the Insured Person in writing of its decision within two (2) business days.

If the Insured Person's attending Physician certifies that a delay in providing the service that has been denied poses an imminent or serious threat to the Insured Person's health, the Insured Person may request an expedited external appeal. In that case, the External Appeal Agent must make a decision within three (3) days of receipt of the completed application. Immediately after reaching a decision, the External Appeal Agent must try to notify the Insured Person and the Company by telephone or facsimile of that decision. The External Appeal Agent must also notify the Insured Person in writing of its decision.

If the External Appeal Agent overturns the Company's decision that a service is not a Medical Necessity or approves benefits for an experimental or investigational treatment, the Company will provide benefits subject to the other terms and conditions of this policy. Please note that if the External Appeal Agent approves benefits for an experimental or investigational treatment that is part of a clinical trial, this policy will only cover the costs of services required to provide treatment to the Insured Person according to the design of the trial. The Company shall not be responsible for the costs of investigational drugs or devices, the costs of non-health care services, the costs of managing research, or costs which would not be covered under this policy for non-experimental or non-investigational treatments provided in such clinical trial.

The External Appeal Agent's decision is binding on both the Insured Person and the Company. The External Appeal Agent's decision is admissible in any court proceeding.

The Company will charge the Insured Person a fee of \$50 for an external appeal. The external appeal application will instruct the Insured Person on the manner in which he must submit the fee. The Company will also waive the fee if the Company determines that paying the fee would pose a hardship to the Insured Person. If the External Appeal Agent overturns the denial of benefits, the fee shall be refunded to the Insured Person.

Insured Person's and Insured Person's Physician's Responsibilities

It is the Insured Person's or, for appeal of a Retrospective Adverse Determination, the Insured's Physician's responsibility to initiate the external appeal process. The external appeal process may be initiated by filing the completed appropriate application with the New York State Department of Insurance (For Insureds, New York State External Appeal Application for Health Care Consumers; for Physicians, New York State External Appeal Application for Health Care Providers). For Retrospective Adverse Determination appeals, the Insured Person must sign an acknowledgement of the request and sign a consent to release of medical records.

Under New York State law, the completed request for appeal must be filed within 45 days of either the date upon which written notification from the Company that it has upheld a denial of benefits is received or the date upon which written waiver of any internal appeal is received. The Company has no authority to grant an extension of this deadline.
